PRODUCT CATALOGUE

# GRILL REVOLUTION

Over 50 years of developing technological and innovative equipment at the service of gastronomy and the demanding HoReCa sector. Tradition and innovation come together in the design of this grill and oven in a single machine, plus a whole range of equipments to master the gastronomic grill. A machine manufactured with high-tech steel alloys and top-quality components. A true love story for grilling.

Josper Charcoal Broiler Oven A Class - Model HJA-50

# JOSPER TECHNOLOGY

**GRILL CONDUCTION:** Perfect seal and moisture of the product.

**NATURAL HEAT CONVECTION:** Perfect broiling point of the product within the cooking chamber.

**DIRECT EMBERS RADIATION:** Energy waves emitted onto the food > Accurate cooking and time reduction.

Josper Charcoal Broiler Oven A Class - Model HJA-50

**FIRST WORLD  
PATENT  
OF CHARCOAL OVENS  
AWARDED BY THE EPO**

## SHOWING THAT GRILLING IS AN ART *Since 1969*

Josper is an elegant combination of a grill and an oven in a single machine. It is aimed at a very demanding profession: the HoReCa sector. It is also highly rated by Steak Houses, Brasseries, Tapas Bars, Bistro-cafes, Traditional restaurants, Haute cuisine...

- It works 100% with charcoal.
- A unique closed barbecue design.
- Different levels of GRILLING.
- Flexible and robust, easy to use, with a front opening door system.
- Vent system for temperature control.

By bringing the added value that comes from the Firewood (charcoal) to the raw material, we obtain those flavours of yesterday, as well as a perfect texture and juiciness. By combining the functions of an oven and grill, we can work at high temperatures, sealing the product, smoking and grilling at the same time. These results are unique, and make the JOSPER Charcoal Oven a piece of equipment that is also unique.

### WHAT DO YOU GET WITH A JOSPER AND WHAT MAKES IT STAND OUT FROM THE REST?

- **OPTIMAL RESULTS WITH ALL TYPES OF FOOD:** its high operating temperature allows you to grill and roast, preventing the product from baking.
- **HIGHER GRILLING QUALITY:** adding the unique flavour of the finest embers; a unique texture and juiciness in all products.
- **FASTER:** 35% faster than an open grill.
- **DUAL OVEN-GRILL FUNCTION:** two machines in one.
- **LOWER CHARCOAL CONSUMPTION:** about 40% less than with an open grill.
- Greatly **REDUCES** flames, preventing food from drying out or burning.
- **MORE QUALITY IN THE WORKPLACE:** prevents the impact of constant heat on the chef.
- **IMPROVED CLEANLINESS:** the ash is stored in a case in a sealed cabinet below the oven.
- **MORE PERSONALIZED SERVICE:** we have a network of official dealers and consultant chefs all over the world to help with startup, advice and after-sales service.

### THE QUALITY IS DEMONSTRATED OVER TIME WITH THE OFFICIAL CERTIFICATES

Our combination of craftsmanship and technology in the manufacturing process allows us to achieve these standards in grilling. We use the best high technology steel alloys created by and for Josper. This means that we can guarantee that our product can work continuously at an average temperature of between 300° (572°F) and 350° (662°F). Design, robustness, technology, engineering and tradition make Josper a unique machine in the market. All our quality is reflected in our seals of approval (CE, UL, NSF\*, GOST, TR...) and our compliance with the highest international safety, health and environmental standards.

\*Except for models HJX and Mangal.
